PROUDLY BROUGHT TO YOU BY COCHRAN HORSE TREKS

Cochran Horse Treks operate horse treks across the beautiful Snowy Mountains from the homesteads of Yaouk on the east and Khancoban on the west. For over 160 years, the Cochran family have gathered the necessary breeding in horses to offer outstanding quality trekking horses.

The staff are like family and make all riders feel welcome and safe without the sense of pretence or commercialism, offering a genuine Australian Outback experience.

In the late 1830s, the Cochran family departed Scotland to settle in Australia. Upon their arrival, they travelled overland on horseback and eventually chose the Yaouk Valley as their home. This area is known as the “Parish of Cochran” and is still largely held by the descendants of the Cochran pioneers.

From the time of settlement, the Cochran family took their cattle into the High Country in Spring for Summer Grazing. The family packed horses with provisions for the days ahead on the high plains and camped in huts or in swags as they shepherded their livestock. Young and old enjoyed the thrill of chasing brumbies, the solitude of rippling streams and the scent of wildflowers which were in abundance on the mountains.

Each summer the family continued their tradition until grazing was banned and horses excluded from the vast expanse of the National Parks. Since then, Peter Cochran and his family have continued the tradition by spending time every summer riding in the remaining accessible areas, visiting secret locations passed on from generation to generation.

The Cochran family now invite all to join them on their traditional trek into the high country where good humour, tall tales and spirited horses are part of the heritage of the people who inhabit Australia.

Visit their website for full details on horse treks available throughout the year.
